Date: Tuesday, March 4, 2014
Time: 12-1pm
Location: http://connect.ag.vt.edu/vmn_at3/

The Volunteer Management System (VMS) for Administrators

Presented by: Pete Pfeiffer

Not sure how to utilize all the features of the VMN-VMS for your chapter's volunteers? During this session, you will be walked through the various features of our online volunteer reporting system for chapter administrators. Pete will cover several key features of the system that you can customize to meet the needs of your chapter's volunteers.

Pete Pfeiffer joined Arlington Regional Master Naturalists in 2010 after retiring from Freddie Mac as an Internet Security Specialist. His interests as a volunteer are working with scouting program, assisting ARMN with computer technology, and monitoring blue bird boxes on the Manassas Battlefield. Most recently he volunteered to help with the statewide program, assisting with technology needs. Pete spent 12 years in the US Navy and 35 years in civilian employment working with varied aspects of computer technology. He lives with his wife of 44 years in Centreville. They have been blessed with 2 children and 3 grand kids. He loves hosting the grand kids during the summer at what they affectionately call 'Camp Papa'.
