

# Virginia Master Naturalist Program Basic Training Course Evaluation

We hope you are enjoying your experience as a new trainee in the Virginia Master Naturalist program. To make sure we keep improving our training materials to meet our volunteers' needs, we would like to ask several questions to get your feedback on the training given to you today on **Coastal and Estuarine Ecology and Management**. This will help us determine the quality of the materials we have developed and continuously improve them for future classes.

**1. Please respond to the following statements: 1 = strongly disagree, 2 = disagree, 3 = neutral, 4 = agree, or 5 = strongly agree.**

	<b>Strongly Disagree</b>				<b>Strongly Agree</b>
Training goals and objectives were clearly stated	1	2	3	4	5
Time allocated for the training was sufficient	1	2	3	4	5
The instructor was effective at teaching the material	1	2	3	4	5
The background readings I received were useful	1	2	3	4	5
I enjoyed the small group activity	1	2	3	4	5

**2. What was your level of confidence in participating in the following activities before and after the training: 1 = not at all confident, 2 = somewhat confident, 3 = confident, and 4 = very confident.**

	<b>BEFORE THIS TRAINING....</b>				<b>AS A RESULT OF THIS TRAINING....</b>			
	Not At All Confident		Very Confident		Not At All Confident		Very Confident	
Educating others about coastal and estuarine ecology and management	1	2	3	4	1	2	3	4
Participating in volunteer service projects related to coastal and estuarine ecology and management	1	2	3	4	1	2	3	4
Finding additional information to learn more about coastal and estuarine ecology and management	1	2	3	4	1	2	3	4
Identifying common flora and fauna within coastal and estuarine systems	1	2	3	4	1	2	3	4

**3. What was your level of knowledge of these topics before and after the training: 1 = no knowledge, 2 = some knowledge, 3 = knowledgeable, and 4 = very knowledgeable.**

	BEFORE THIS TRAINING....				AS A RESULT OF THIS TRAINING....			
	No Knowledge			Very Knowledgeable	No Knowledge			Very Knowledgeable
	1	2	3	4	1	2	3	4
The ecological, economical, and cultural importance of the Chesapeake Bay								
The different types of coastal and estuarine habitats								
How physical factors (e.g., tides, weather) influence coastal and estuarine systems								
The impacts of climate change on coastal and estuarine systems								
Threats affecting coastal and estuarine systems in Virginia								
The role of Virginia's state agencies in managing coastal and estuarine systems								
Management tools available to conserve coastal and estuarine systems								

**4. What overall rating would you give the training you received?**

Excellent       Good       Average       Poor       Very Poor

**5. Please provide any additional comments relevant to your experience participating in this training.**

Virginia Master Naturalist and Virginia Cooperative Extension programs and employment are open to all, regardless of age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, veteran status, or any other basis protected by law. An equal opportunity/affirmative action employer. Issued in furtherance of Cooperative Extension work, Virginia Polytechnic Institute and State University, Virginia State University, and the U.S. Department of Agriculture cooperating. Edwin J. Jones, Director, Virginia Cooperative Extension, Virginia Tech, Blacksburg; M. Ray McKinnie, Interim Administrator, 1890 Extension Program, Virginia State University, Petersburg.
